SUMMARY

Motivated B.Tech student specializing in Artificial Intelligence and Machine Learning with strong Python, data science, and machine learning skills. Hands-on experience through internships and projects in data preprocessing, feature engineering, and model development, seeking entry-level role to build practical AI solutions.

EXPERIENCE

AI & ML Intern

IIITDM Kancheepuram

September 2025 - November 2025, Melakottaiyur, TN

- I attended technical training at IIITDM Kancheepuram learning real-world programming and AI/ML applications.
- Developed data analysis scripts and basic machine learning models during hands-on sessions.
- Improved understanding of algorithms, data structures, machine learning, problem-solving, and teamwork skills.

Data Science Intern

Ved Upskilling (Virtual)

August 2025 - October 2025

- Built ML models using Python and scikit-learn for real-world datasets.
- Applied EDA, data visualization, and statistical analysis techniques.
- Developed automated data preprocessing pipelines to streamline dataset preparation and enhance model training efficiency.

Data Science Intern

Codtech IT Solutions (Virtual)

July 2025 - September 2025

- Developed data pipelines, EDA workflows, and prediction models.
- Engineered dashboards to visualize key metrics, empowering leadership with actionable insights for faster decision-making.
- Refined machine learning model parameters and validated results through rigorous cross-validation techniques, elevating prediction accuracy and ensuring reliability of data-driven recommendations.

PROJECT

AI Conversational Chatbot (LLMs)

October 2025 - November 2025

- Engineered AI chatbot using large language models for automated query handling.
- Integrated natural language understanding to resolve complex customer queries efficiently.
- Implemented multilingual language models to support global users with personalized responses.

AI Text Summarizer

November 2025 - January 2026

- Engineered AI text summarizer using advanced natural language processing techniques.
- Condensed lengthy documents efficiently while preserving critical information and context.
- Improved readability and enhanced user comprehension through intelligent automated summarization.

EDUCATION

B.Tech

Anurag Group of Institutions · kodad, Telangana · 2023 - 2027 · 8.23 CGPA

Intermediate (XII)

NCL Junior College ,Mattapalli,TG · 2023 · 96.9%

SSC (X)

Sri Chaitanya Tech HS, Kodad, TG · 2021 · 100%

CERTIFICATIONS

Data Science with python

NPTEL · 2025

Completed AI&ML Certification

UDEMY · 2025

SKILLS

Technical Skills: Java, Python, c

Artificial Intelligence, Machine Learning, Data Science

Languages: English, Hindi, Telugu, Tamil
